

1. Trade name	Quick Fire														
Application:	Fire lighting														
Company/producer:	Quick Fire Vejlevej 40, DK-7182 Bredsten, Denmark, Tel: +45 75882844 Fax: +45 75883734 email: quickfire@quickfire.dk														
2. Hazards identification	<p>The product is not a hazardous substance or preparation according to EC directives 67/548/EEC or 1999/45/EC. According to the legislation of the Danish Ministry of Environment regarding classification and labelling, the legislation does not apply to the product. Neither is a material safety data sheet required according to the legislation of the Labour Inspection.</p>														
3. Composition/components	<p>Description: The main components are paraffinic oil, urea resin contained in a polyethylene plastic pouch</p> <table border="1"><thead><tr><th>Chemical name:</th><th>%</th><th>CAS-nr.</th><th>Einics nr.</th><th>Symbol</th><th>R-phrases</th><th>Note</th></tr></thead><tbody><tr><td>Paraffinic oil, white</td><td>>50</td><td>8012-95-1</td><td>232-384-2</td><td></td><td></td><td></td></tr></tbody></table>	Chemical name:	%	CAS-nr. Chemical name:	%	CAS-nr.	Einics nr.	Symbol	R-phrases	Note									
Paraffinic oil, white	>50	8012-95-1	232-384-2												
4. First aid	<p>Inhalation: No special requirements</p> <p>Skin contact: No requirements by normal use with unbroken plastic pouch. In case the plastic pouch is broken and direct skin contact occur wash with hot water and soap.</p> <p>Eye contact: No requirements by normal use with unbroken plastic pouch. In case of direct contact with the product immediately flush eyes with water for 10 min. with wide open eyes. Remove contact lenses.</p> <p>Ingestion: Drink water or milk. Seek physician if not well.</p>														
5. Fire fighting	<p>Extinguishants: Water spray, dry powder, carbon dioxide or covering with sand or fire blanket depending on the scale of the fire. Water spray may also be used as the oil in the product is absorbed in the resin.</p> <p>Not suitable extinguishants:</p> <p>Special risks: During fire, health hazardous gases may be formed (carbon monoxide)</p> <p>Personal protective equipment: No special requirements.</p>														
6. Precautions at spill accident	<p>Security precaution: No special requirements</p> <p>Cleaning up methods: Collect residues in container for combustible waste.</p>														
7. Handling and storage	<p>Handling: Do not break sealing plastic pouch including when used for lighting fire</p> <p>Storage: Store in the sealed plastic pouch</p>														

8. Exposure control/personal protection

Workplace interior:	No special requirements
Technical aids:	No special requirements
Personal protection:	
Inhalation:	None
Hands:	None
Eyes:	None
Skin:	None
Education/training:	None
Application limits:	None

9. Physical-chemical properties

Appearance: Solid	Boiling point: Not known	Density: Not known
Odour: None	Melting point: Not known	Solubility: Not miscible with water
pH: Not relevant	Flammability: Flash point >65°C	Others:

10. Stability and reactivity

Conditions and materials to be avoided:	Do not break sealed plastic pouch
Hazardous reaction and degradation products:	Stable

11. Toxicological information

Inhalation:	None
Skin contact:	None
Eye contact:	None
Ingestion:	In case children or other accidentally swallow the product nausea and stomach pain may occur
Long-term effects:	No known

12. Environmental information

Environmental classification:	The product is not classified as dangerous to the environment.
Mobility:	No information
Degradation:	No information
Accumulation:	No information
Ecotoxicity:	No information
Others:	

13. Disposal

Precaution and disposal methods: The waste is not hazardous waste.
Dispose of waste and residues in accordance with local authority requirements.

14. Transport information

The product is not covered by the regulation regarding transport of dangerous goods.

UN-no:	Proper shipping name:	
Road transport:		
ADR classification:	Point:	Litra:
Sea transport:		
IMDG:	Package group:	Page: (Eng. ed.)

15. Regulatory information

Labelling

The product is not classified as a dangerous product according to EU guidelines

16. Other information

This material safety data sheet has been prepared in accordance with 2001/58EC 4/3-2006 by Danish Technological Institute, Environment, B. Malmgren-Hansen based on the information given by the supplier regarding the composition of the product. Revised according to EU regulation 1907/2006

All information and instructions are based on the actual scientific and technical know-how.
